## PROFESSIONAL SUMMARY

Dynamic and motivated Python Fullstack Developer with 6 months of hands-on experience in web development. Proficient in leveraging Python and Django to build robust backend systems and responsive frontend interfaces. Seeking to contribute technical expertise and creativity to a progressive team.

## SKILLS

- **Languages & Technologies:** Python, Java Script, HTML, CSS, Bootstrab.
- **Framework:** Django.
- **Tools:** Postman, VScode, MySQL, Git, GitHub.
- **Web Services:** RESTful API.
- **Soft Skill:** Problem-solving, Teamwork, Time management.

## EXPERIENCE

**Vacation Feast, Chennai**

January 2024 – Present

Python Fullstack Developer

- **Developed and maintained scalable web applications:** Streamlined content management processes using advanced JSON database techniques, enhancing operational efficiency.
- **Enhanced hotel and flight booking functionality through API integration:** Implemented seamless booking experiences and improved data management for superior customer support.
- **Implemented APIs for flight and hotel ticket booking:** using tools like Postman and automated deployment. Developed a robust portal using advanced encryption to protect user data and ensure password security.

## EDUCATION

- |                            |            |                |                     |
|----------------------------|------------|----------------|---------------------|
| • MIET Engineering college | B.E( CSE ) | CGPA: 7.80     | JUN 2019 – MAY 2023 |
| • P.A.A Hr. Sec School     | HSC        | Percentage: 50 | APR 2017 – MAY 2018 |

## PROJECTS

- **Developed a CMS-Enable Website (2024) | [Link](#):** Developed a dynamic website using Django, Python, MySQL, HTML, CSS, and JavaScript, enhancing content creation and management. Improved data management and streamlined backend processes with JSON storage. Enhanced user experience through real-time AJAX communication and implemented secure user authentication with encrypted passwords and multi-layered OTP verification via WhatsApp API and email.
- **Developed hotel and flight ticket booking Website (2024):** Developed a dynamic website using Django, JavaScript, jQuery, MySQL, Python, HTML, and CSS, integrating real-time information through respective APIs. Enhanced user experience with AJAX for filtering and sorting options, and managed bookings and payments with SQL databases and Razorpay integration. Created customer portals for managing bookings, including WhatsApp integration for voucher links, cancellations, and secure booking confirmations with encrypted PDF vouchers.

## CERTIFICATIONS

- Experienced Python Fullstack Developer certification from Besant Technologies.
- Proficient in Python, HTML, CSS, JavaScript, Bootstrap, API integration, and jQuery, Django.
